Dear Researcher,

The organizing committee of the 9th international wound and tissue repair congress would like to select two candidates for Young Scientist, and Young Researcher award and appreciation. This scientific event might be a unique chance for sharing the ideas and experiences with other participants of this congress and possibility of professional development in related fields.

The Young scientists will be selected among those are the **first author of the articles**. They should present their interest to be considered for this candidacy by selecting the option of first author in submission process.

These are obligatory criteria for the candidate selection process:

- Graduated in higher education levels: Master, PhD or Postdoc
- Age no older than 35 years
- At least one submission as the first author for 9th WTRC

The process is as following:

1. Fill out the registration form for Young Scientist and Young Researcher.
2. Select the option of Young Scientist and Young Researcher when fill out the first author form.
3. Upload the vital prerequisite files:
   - Filled out registration form for Young Scientist and Young Researcher
   - Upload the master or PhD or Postdoc certificates
   - Upload English CV
   - Upload Passport or ID card files
   - Recommendation letter from your supervisor including her/his contact details: Tel, email and address
   - Motivation letter (up to 300 words)

The deadline for participating in this competition is the deadline for abstract submission of the congress. In the case of no selection for this award, your right for presentation in oral or poster sessions are secured after scientific review process of the congress.
